

Greetings to you and I hope your business is off to a fast start in September. In this email, I have several updates to share with you.

- Neurotech Forum - Evergreen and PhysioTest will attend, exhibit and present at the Neurotech Leaders Forum in San Francisco, October 17/18. Let me know if you plan to attend this conference and are able to connect with us. <http://www.neurotechreports.com/pages/nlfagenda.html>
- MD&M Minneapolis conference-Randy Nelson is session chair on "DFx for Medical Devices". The session will be held on Nov. 2 and is focused on understanding how to design to meet the requirements for manufacturing, test, serviceability, and all facets of the device lifecycle. The session will describe how to best utilize this tool to maximize development efficiency of a medical device whether internally developed or working with outside sources. http://www.canontradeshows.com/expo/minn11/conference_202.html
- Brochure - Click here to access the pdf, [Evergreen Medical Overview](#), and save or print. Share with your colleagues as you feel appropriate. This new brochure outlines our expertise and new capabilities we have added at Evergreen Medical.

Evergreen Medical provides complete product/system design and development of pulse generators, leads, catheters, steerable sheaths, introducers and implant tools for a variety of clinical applications. PhysioTest is a wholly owned subsidiary of Evergreen Medical and provides a complete range of testing services for class II/III medical devices. Both Evergreen and PhysioTest staff understand clinical conditions and the application of medical devices.

Please contact us for more information on Evergreen or PhysioTest, or to discuss an upcoming project.

Sincerely
Randy Nelson
